

# Individual Garbage Cart Quick Start Guide

Congratulations! Here's the Brand New 90-Gallon Individual Garbage Cart that is yours and yours only! Gone were the days that you had to share a 300-gallon bin with others. This cart is yours and is tagged to your address.

## Does this affect my day of service?

Negative! At this time, your day of service WILL NOT change. Need a reminder of what day your garbage is collected? Please search by address on Solid Waste Routes page at [BillingsMTPublicWorks.gov](http://BillingsMTPublicWorks.gov) -> Services -> Garbage Collection

## Where do I put the cart?

On your Day of Service	Other Days
Make sure your cart is in the alley by 7:00 am, on the side where the old 300-gallon bin was originally located, and 4 ft away from fence and all obstacles.	Keep your cart stored on your property, or along your designated side of the alley.

## Can I keep my cart closer to my home?

Why, yes! Feel free to move your cart closer to your home, but please put it in the alley on trash day by **7:00 am**.

## What about my "extras"?

Please place any "extras" in the alley, on the designated side where the cart is emptied, on the appropriate Monday of each month for collection.

## How can I help save collection time?

Trim limbs and hedges. Do not place your 90-gallon cart under wires or in front of gates. Place them 4 ft away from fences and all obstacles. See photos included.

## What about yard waste?

Yard waste carts will continue to be collected on the curb. Please do not store or place yard waste carts in the alley.

## What do I do with the old bin?

Now that you have your shiny 90-gallon cart, please stop using the 300-gallon bin. The 300-gallon bins will be removed soon.

On behalf of Billings Public Works, we thank you for being a good neighbor! If you have any questions, please contact Solid Waste at 406-657-8285. We are here to help.

Until then, have a great day!
